

NATIONAL WATER RESEARCH INSTITUTE

Technical Advisory Panel (TAP) for City of Santa Barbara's Subsurface Desalination Intake and Potable Reuse Feasibility Studies

Wednesday, October 26, 2016
9:30 am – 12:00 noon

PUBLIC MEETING AGENDA

LOCATION

Santa Barbara City Hall, Council Chambers Room
735 Anacapa Street
Santa Barbara, CA 93101

CONTACT

Suzanne Faubl, NWRI
sfaubl@nwri-usa.org
(714) 378-3278

Meeting Objectives:

- The City of Santa Barbara and their consultant, Carollo Engineers, will present the following:
 - Potable Reuse Feasibility Study Technical Memo #3: Basis of Design and Initial Screening
- The Technical Advisory Panel will conduct a technical review of the analysis presented
- Members of the public will have an opportunity to provide comments on the information presented

9:30 am	Agenda Item #1: Welcome and Introductions	Jeff Mosher, National Water Research Institute (NWRI)
9:35 am	Agenda Item #2: Overview of the Panel Process	Jeff Mosher, NWRI
9:45 am	Agenda Item #3: Basis of Design and Initial Screening Analysis of Potable Reuse Alternatives	City of Santa Barbara and Carollo Engineers
10:30 am	Agenda Item #4: Questions from Technical Advisory Panel on the Information Presented	Moderated by Amy Childress, Ph.D. Panel Chair
11:00 am	Agenda Item #5: Public Comments	Moderated by Jeff Mosher, NWRI
11:50 am	Agenda Item #6: Wrap Up and Next Steps	Moderated by Jeff Mosher, NWRI
12:00 noon	MEETING ADJOURNS	

This meeting is accessible to the physically disabled. To request a disability-related modifications or accommodation, contact the NWRI office at (714) 378-3278 or at least five business days before the meeting. For more information about this Technical Advisory Panel, go to <http://www.nwri-usa.org/santa-barbara-panel.htm>.

NATIONAL WATER RESEARCH INSTITUTE

NOTICE OF PUBLIC MEETING

Wednesday, October 26, 2016

9:30 am to 12:00 noon

Technical Advisory Panel (TAP) for City of Santa Barbara's Subsurface Desalination Intake and Potable Reuse Feasibility Studies

Location:

Santa Barbara City Hall, Council Chambers Room
735 Anacapa Street, Santa Barbara, CA 93101

Purpose: The National Water Research Institute (NWRI), a 501c3 nonprofit, invites interested persons to attend a public meeting (Meeting #3) of an NWRI Technical Advisory Panel (TAP) review of the City of Santa Barbara's basis of design and initial technical screening analysis of options for a potable reuse project to supplement the City's drinking water supply.

Background: In 2014, the Santa Barbara City Council directed staff to report back on a plan to evaluate the feasibility of subsurface desalination intake and potable reuse. The City Council directed staff to report back on a plan for this evaluation after a desalination plant contract was awarded in April 2015. The work products for the Feasibility Studies will be developed to satisfy the requirements of the City's amended Waste Discharge Requirements for the El Estero Wastewater Treatment Plant and support a future update to the City's Long Term Water Supply Plan to include alternatives considered in this study. For more information, visit the project web site at <http://www.nwri-usa.org/santa-barbara-panel.htm>

Presentations: The City of Santa Barbara and its consultant, Carollo Engineers, will present Potable Reuse Feasibility Study Technical Memo #3: Basis of Design and Initial Screening.

Public comment: All are invited to attend this public meeting and provide comments on the report being presented. Written comments will be accepted until November 1, 2016, at sfaubl@nwri-uwa.org.

For more information: Contact Suzanne Faubl, Water Resources Scientist and Project Manager, NWRI, at sfaubl@nwri-usa.org or (714) 378-3278.

This meeting is accessible to the physically disabled. Requests for disability-related modifications or accommodations should be made at least five business days prior to the meeting. Call the NWRI office at (714) 378-3278 or email Suzanne Faubl at sfaubl@nwri-usa.org.
